u:cris

Research Information System for PhD/Doctoral Students

PhD Orientation Week, October 2024

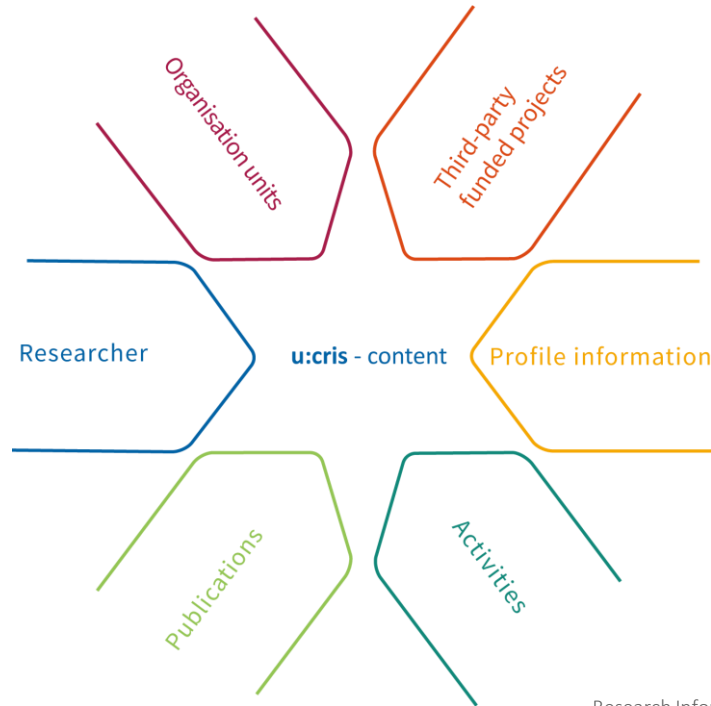

Topics

- What is u:cris used for?
- Benefits for researchers and PhD students

Research Information System u:cris?

u:cris is the Research Information System of the University of Vienna. It contains :

Differences between PhD students with and without employment

- PhD students with employment (Prae-doc positions)
 - Are expected to have complete u:cris record as they contribute to the performance of the whole University
 - will be included in evaluations, intellectual capital report etc.
 - Visibility of portal profile **public per default**
- PhD students without employment
 - Can use u:cris (only if a social security number is provided) with all functionalities but some limitations:
 - **Will not be** included in evaluations, Intellectual Capital Report etc.
 - **Public visibility** of portal profile only **on request** (via Servicedesk)

Why is u:cris of interest to PhD students?

Discover research at the University of Vienna

Organise and store all research-related information in one place:

- Research interests
- Publications (journal articles, book chapters, etc.)
- Conference presentations (talks, posters, etc.)
- Collaborations and projects

All designed to enhance your visibility.

Multiple use of u:cris data

Once-only input and multiple use

- **ORCID** interface
- **u:cris Portal**
 - Presentation of research activities to the public
 - Browse & search: organisational units, researchers, publications etc.
- **Display research output on websites of departments**
 - Via Typo3-Plug-in (Typo3 = Content Management System of the University of Vienna)
- Export **publication lists** in different citation styles
- Export your own **CV**

Support and Trainings

- [u:cris-Wiki](#)
- [Training courses](#)
- [Consultation Hours](#) on Fridays 10:00-11:00 (We kindly ask you to register)
