

Research Services Project Management

A certified and experienced Project Manager offers the following services and knowledge in Project Management

What we offer:

- General Assistance
- Implementation Issues
- Budget Monitoring
- Project Reporting

The Project Management Team offers different levels of service, which can be negotiated according to your individual needs.

The project management service is a fee-based supplemental offer to the existing third-party-funding assistance by several central and/or decentral units of the University of Vienna. Costs can and should be budgeted already at the application stage or can be covered by project overheads.

"The Project Management Support has been crucially important in all stages of my ERC project. I wouldn't have known how to prepare financial reports without its unfailingly friendly and reliable assistance."

Univ.-Prof. Dr. Martin Kusch | Department of Philosophy

Michael Wimmer

joined the Research Services and Career Development office in 2011. In 2013 he became project manager of a Lifelong Learning Multilateral Actions project. Since then he assisted PI's in the management of several ERC Starting and Advanced Grants, FP7-ICT and Interreg projects. He was certified as a Junior Project Manager IPMA Level D® in 2016.

Stephanie Fogel

has been part of the Research Services and Career Development Unit since October 2016. For the past 5 years she has worked exclusively on the acquisition, implementation, and management of large, complex international projects. With a specific focus on EU funding, Stephanie is well-versed in project implementation and audit guidelines and requirements, which results in a smooth and effective project management style. Stephanie is also a native English speaker
