

ORCID and your digital identity as a researcher

Most names are NOT unique, but ambiguous

<https://twitter.com/DrMarkBurnley/status/696827654645948418>

ORCID offers a solution to name ambiguity

- **ORCID®** (Open Researcher & Contributor ID) is an international, interdisciplinary, open and non-profit organization. Its main goal is to provide a unique identification for researchers.
- The **ORCID iD** is a nonproprietary 16-digit code to uniquely identify scientific and other academic authors and contributors. It aims to classify authorship and facilitate name disambiguation.

ORCID connects all relevant stakeholders

ORCID is globally supported

Crossref and DataCite: DOI providers

The advantages in a nutshell

- **Increased visibility** of your research activities
- **Better overview of your data** in academic publishing
- **Better networking opportunities** in academic communication
- **Minimal administrative effort** after the successful set-up of personal record

Attend the more comprehensive webinar [ORCID iD - Why should I have one?](#) on 27 Jan 2023!
