Information in connection with COVID-19

Due to the particular circumstances with the COVID-19 pandemic the [Federal Ministry of Social Affairs, Health, Care and Consumer Protection](#) issued a regulation, which allows the entry to Austria under special conditions.

Information regarding **actual entry conditions** for Austria (especially if the entry at the moment is permitted or a PCR test has to be presented and a quarantine period undergone) can be found on our website.

Despite the actual special conditions for the entry to Austria regarding COVID-19 the regulations for the application for visa or a residence title - as given on our website below - are still in force.
